Since 1989, Produits Re-Plast inc., located in Notre-Dame-du-Bon-Conseil in Quebec, has designed, produced and marketed, among other things, site furnishings like those in our Urbain Design[™] line, as well as plank flooring for decks through our Perma-Deck® Avantage+ and Perma-Deck® Ultraplast. These are made from 100% recycled plastics: Ultra-Plast[™], an amalgam of post-consumer and post-industrial recycled plastics. We stand out through our commitment to environmental protection and sustainable development.

Urbain Design[™] is a complete and diverse line of stylized and durable site furnishings. This line is offered in three distinct families: Urbain Design[™] Signature, Urbain Design[™] Avenue and Urbain Design[™] Leisure. Each family is composed of distinct and unique series which you will discover throughout these pages.

Perma-Deck® Avantage + and Perma-Deck Ultraplast are attractive, practical and innovative solutions for your decks or balconies. They are ecologically friendly products, made from 100% recycled plastic and are without exception the best alternatives for your balconies, offering maximum durability and minimum maintenance.

These series are highly prised by site furnishing and landscaping professionals such as architects, urban designers, public and recreational area managers and consumers.

Urbain Design[™] products are aesthetically pleasing, comfortable and of superior quality. This is a direct consequence of our ecological approach, the deep respect we have for our environment and our sustainable development perspective, Produits Re-Plast inc. uses manufacturing procedures and methods that are respectful of the environment.

Together we are taking action and helping to preserve our natural resources by using all of our recycled materials!

We are leaders in recycling post-consumer and post-industrial plastic!
